

The Department of Mathematical Sciences (www.math.clemson.edu) anticipates tenure-track faculty positions beginning August 2015.

Position Description

The Department of Mathematical Sciences at Clemson University invites applications for tenure-track faculty positions starting with the Fall 2015 semester. Targeted recruiting is for the assistant or associate professor rank with areas of specialization including operations research and statistics/applied statistics. Applicants at all ranks will be considered; however, all positions are subject to funding availability. Desirable attributes for candidates include an interdisciplinary research orientation in the mathematical sciences; post-doctoral, industrial, or practical experience; collaborative possibilities with faculty members in the Department and related disciplines; and an interest in innovative applications. Candidates should have strong potential or demonstrated capability for effective research and teaching in the mathematical sciences.

The Department includes the areas of algebra and discrete mathematics; operations research; analysis; bioinformatics, computational mathematics; mathematical statistics and probability; and applied statistics. For further information regarding the department and its programs, please visit the web site <http://www.math.clemson.edu>.

An earned doctorate or equivalent is required for the tenure track positions. Review of applications will begin on October 10 and will continue until the positions are filled. Full consideration will be given to applications submitted by November 15, 2014.

Applicants should indicate their research specialties and interests in their cover letter. Vita, statements on teaching and research, and three reference letters should be electronically filed at <http://www.mathjobs.org>.

Clemson University is an AA/EEO employer and does not discriminate against any person or group on the basis of age, color, disability, gender, pregnancy, national origin, race, religion, sexual orientation, veteran status or genetic information. Clemson University is building a culturally diverse faculty committed to working in a multicultural environment and encourages applications from minorities and women.
