

The Mathematics Department at Rowan University is searching to fill a new assistant professor position in biostatistics. Rowan has a new biomathematics graduate program, a new health data analytics graduate program, and two medical schools, so there will be opportunities for teaching graduate level courses and interacting with other researchers.

We are asking that you let any of your graduating students or postdocs know about this opportunity. The relevant information is available at the following web site [assistant professor biostatistics](#). In order to be given full consideration for the position at Rowan University, you must apply through this website. The closing date for applications is Nov 30, 2014.

Thank you for your help.

Sincerely,

Dexter Whittinghill, Chair

Dr. Dexter Whittinghill

Chair, Mathematics
